

DSC's 75th Anniversary Limited Edition Laser Engraved Logo Marlin Model 60

As most everyone knows September 2011 is DSC's 75th Anniversary. In celebration we will be offering some very special items throughout the year. All will be limited edition items and will be unique to DSC's 75th Anniversary.

The first item to be offered is a Marlin Model 60 semi auto .22 rifle with a Tasco Premium 22 Magnum 3 X 9 scope mounted and laser boresighted, and best of all, DSC logo laser engraved on the stock and numbered sequentially #1 through #5. Yep, only 5 available and reasonably priced at \$225.

Due to the high demand for the other logo'd guns offered in the past, and in the interest of fairness, we thought we might try something a bit different this time and see how it works. If interested, e-mail your name and phone number to rmsavo@ameritech.net or walthw1@gmail.com or stop in at the DSC office. Names will be collected and if necessary a drawing will be held at the General membership meeting to announce the lucky purchasers. If supply does meet demand, no drawing will be necessary and those folks will be announced at the General Membership meeting without a drawing. Good luck!
