

## D-S-C Blood Drive for June 6, 2010

The D-S-C Blood Drive was considered a success according to the goal the Red Cross set for our group. The goal was 67 pints. We did get the 67 pints with only 4 applicants not being able to give. We had several double red cell donors, which the Red Cross is always very happy to get.

The Blood Drive Coordinators would like to thank all who donated, tried to donate and worked to make this drive a success. Your patience was extremely appreciated.

The drawing was done after the drive by a non-participant of the drive. The winners of the gift certificates are as follows:
